

# QC Migration

HP QualityCenter 11.0

## Audience:

- Quality Assurance department
- IT director

## Service:

The Migration Package has been designed to help the customer rapidly migrate Quality Center in order to better manage their testing efforts with a newer version. Once the migration planning phase is completed, the deployment of Quality Center will be carried out and validation of the deployment will be completed to certify that the installation is stable and ready for production.

## applicable software:

HP QualityCenter 8.x/9.x  
 optional: QTP, BPT, Service Test, CIT,  
 optional: custom or standard integrations i.e.SAP

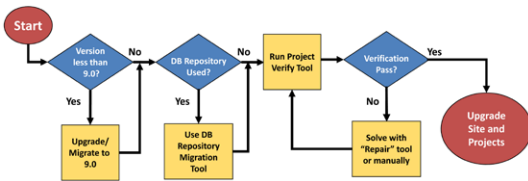

## Benefits:

- avoid risk and cost in case of End Of Support for current version
- usage of new features
- extension of application framework
- usage of extensive experience in migrations within multiple projects
- safe planning for migration window and roll out through profi.com
- know how transfer from experienced consultants

**The solution:** ... Use the advantages, win together with migration!

## Review and planning
